

EVERYTHING YOU THOUGHT YOU KNEW ABOUT RELOCATION IS ABOUT TO CHANGE.

Introducing CoPilot — a new cloud-based platform for managing employee relocation.

Think about the last vacation you booked. If you're like most people, you booked it yourself, and you did it online. And for most people, that's a pretty good approach.

WHAT DOES THAT HAVE TO DO WITH RELOCATION? QUITE A BIT, ACTUALLY.

Mobility service providers have always operated a lot like travel agencies did before online booking came on the scene. And, there hasn't been an alternative to this approach. Until today.

CoPilot is a new, affordable cloud-based solution for managing relocation. We offer a comprehensive platform that empowers employees to manage their move and access our vetted partners online, while giving you full visibility and budget control.

With CoPilot, you can:

- ▶ **Determine what's needed ahead of time:** CoPilot includes an employee intake process that can be instrumental in helping decide what services to offer each relocating employee.
- ▶ **Set your budget and control costs:** With CoPilot's online cost estimator, you'll know the costs before authorizing a move, so you can get internal approvals, minimize exceptions, and not spend a penny more than necessary.
- ▶ **Manage expenses and maximize tax compliance:** Track all of your program costs and ensure compliance — all while maximizing tax benefits.
- ▶ **Help your employees relocate smoothly:** CoPilot empowers employees to complete a move on their own schedule within the defined budget.
- ▶ **Get information, where and when it's needed:** Our online platform is easy to use and available on desktop, mobile, and tablet devices 24/7.

Best of all, CoPilot is backed by NuCompass Mobility's decades of experience as a relocation industry leader, and it couldn't be easier for you to manage.
